

## **Metal Fabrication Worker**

Pacific Coast Marine Windshields was founded in 1989 and is North America's premier marine windshield manufacturer. We are looking for a **Metal Fabrication Worker** to join our team! Experience within a manufacturing environment is an asset but we are willing to train enthusiastic and dependable candidates.

### **PURPOSE**

The Metal Fabrication Worker must run the Stretch-Forming machines, roll formers, punch press as well as snake rails prior to bending metal products. They must follow the directions of the Stretch-Forming Supervisor, work with the other team members and maintain high quality production methods.

### **Key Responsibilities**

- Operate stretch-forming machines
- Comply with all safety standards including wearing required PPE
- Monitor the operational functionality of machines
- Ensure the workspace is kept neat and tidy according to shop floor standards

### **Must**

- Be able to work autonomously
- Have strong team working and communication skills
- Be able to lift 50lbs (23 kg) comfortably

### **Would Prefer**

- Possess a valid driver's license with a clean driving abstract
- Possess a valid forklift license
- Prior knowledge of operating machinery

### **WORKING CONDITIONS**

Loud environment

Standing for extended periods of time

**Starting Salary:** \$17.00/hr to \$20.00/hr (depends on experience)

We offer competitive pay, group benefits and a fun work environment. You are eligible for company paid benefits after 6 months of service which include: Health, Dental, Prescription Drugs, and Vision
